Steve Haflich <steve\_hafli...@yahoo.com wrote in message I'm looking for a good introduction to Buddhism. steve, say hello to buddhism, buddhism, say hello to steve now that you two are formally introduced one of you can choose the caterers. Shouldn't you have asked what kind of Buddhism does he want? Dear Steve Haflich: Ignore the hapless egomaniac and you can start here. <http://en.wikipedia.org/wiki/Buddhism> Let me know if you are interested in Chan/Seon/Zen.

I'm looking for a good introduction to Buddhism. Steve Hello Steve, The very best book that I could possibly recommend is What the Buddha Taught by Walpola Rahula. You can probably score a new or even a used copy on Amazon very cheaply. It is absolutely excellent.

Steve Haflich <steve\_hafl...@yahoo.com wrote in message I'm looking for a good introduction to Buddhism. Steve Hello Steve, The very best book that I could possibly recommend is What the Buddha Taught by Walpola Rahula. You can probably score a new or even a used copy on Amazon very cheaply. It is absolutely excellent. And then the juxtaposedly titled The Buddha and his Teachings. By Samuel Bercholz, which is actually a collection of writings from different people. The writers are from all different schools. (Therevada, Zen, Tibetan) There's also a brief history of Buddhism and life of the Buddha. These two books together will give you what it would take a few years to get in bits and pieces otherwise. I wish I had started with them. Then you can spend more time practicing and less time reading. (If that's the plan) -DaveK - Hide quoted text -- Show quoted text -

I'm looking for a good introduction to Buddhism. Steve Buddhism for Dummies is great! Co-written by 2 guys, both experts, one a monk who was translator for the Dalai Lama. Maybe both are monks, I'm not sure. But the book is very well written, covers the whole gamut of Buddhism, teaches all the basics, and has tons of info. I also just posted a ton of internet links to great FREE info, above. See the thread titled Many Buddhism Links from a couple days ago. There is enough there to keep you reading dharma for years! Some of these links are to the scriptures translated from Pali, and some are widely recognized experts on Buddhism.

I'm looking for a good introduction to Buddhism. Steve Also, if you want to read the Buddha's actual teachings, not someone's reader's digest of it, (not that there's anything wrong with that! There are some great ones out there by monks who have a way of taking the Buddha's teachings and making them exciting and relative to today's particular slant), try The Tipitaka or The Long Discourses of the Buddha: A Translation of the Digha Nikaya (Teachings of the Buddha) by Maurice Walshe. I am really enjoying it. Got it at the library and have had it out for about a month now. Some day I will probably buy it. Click here for link to it at amazon.com: <http://tinyurl.com/y52sf5>
