I'd go for option 3, of course. We're supposed to be a nation of laws, not men, at \_all\_ times, not just when it's easy or cheap. The LAW says we can hold them. No part of arrest them and get them ACLU lawyers who will seek to have the charges dismissed as their HUMAN RIGHTS disagrees with that. You know Peaches, I generally tend to think of ANY asshole planting roadside bombs and shooting at markets with an RPG is pretty much a prick in my book! I say send them HOME to China and let the ACLU represent them in the FAIR TRIAL in China! You really aren't getting this, are you? They weren't planting roadside bombs, they weren't shooting at merchants with AK-47s. Nobody but you says they were. I keep forgetting they were just DELIVERING GIRL SCOUT COOKIES on the road to Kabul! Apparently what you keep forgetting is that it takes more than your say so for people to be guilty.

SO - if I understand you, ifg they are acting on tghe part of a group that is not an official government agency, they ARE 100% protected and we are OBLIGATED to provide then ACLU lawyers and afford them ALL the rights of a U.S. citizen including the right to remain silent and have a lawyer appointed before any questioning etc? It's making \*ME\* look stupid??? Yes. You believe that and you think \*I\* am the stupid one? Peaches I love ya, BUT..... I don't so much think you are stupid, but I do think you are operating on emotion with little engagement of critical thinking or evaluation. You've failed to demonstrate logic, or facts, and throughout this thread you've consistently thrown out powerful emotional buzzwords rather than facts or logic - as demonstrated by your prefacing of lawyers with ACLU each time you say it. That is a buzzword that has emotional resonance on your side of the line, but for most folks it's a word that isn't charged with that negative emotion, so it's really not having the effect you intend.

peachy ashie passion <exquisitepe...@hotmail.com wrote in message Yeah, how about if you drop the overwrought hypothetical and actually discuss the issue of the actual prisoners held now at the actual Gitmo ? Peaches- tell me - do you think those guys at GITMO were delivering Girl Scout Cookies??????????? Pizza Hut delivery men???? Nobody knows what they are or aren't guilty of, or what they did or didn't do. Including you. Somebody knows. Perhaps. But the Deity who is omniscient isn't passing that information on to the rest of us. Peaches don't you think the terrorist ASSHOLE knows that they did???? Sure. And if they'd like to confess and tell us all, then bingo, we've got it. But since they aren't inclined to share that information, I'm not in favor of scooping up random folks just in case they might be terrorists. So we just waterboard them and get them to CONFESS and tell us where the bombs are. Remember that REAL BADASS tough guy Al Queda # 3 SUPER leader Kahlid Sheikh Mohammed? The WORST baddest son of a bitch AL Queda had as a field commander and the brain of the 9-11 attacks? 10 MINUTES of waterboarding and he spilled his guts like a baby! Now they can't stop him talking. Peaches they are NOT just scooping up people at random. If they are not, then why have they only convicted 2? Pretty simple Peaches they are getting information from them. BUT - - they have turned a bunch of them. Know what that means? It means that once again you are spouting theories without any supporting facts.

I keep forgetting they were just DELIVERING GIRL SCOUT COOKIES on the road to Kabul! Apparently what you keep forgetting is that it takes more than your say so for people to be guilty. That's Ken Pangborn for you. Several years ago, he got pissed because I called him on some of his lies on a newsgroup discussion, in view of his friends and peers. He began shrieking that he was going to have me arrested, posting daily updates about a massive law enforcement investigation which was under way, and which would end with me seeing prison time. (For nothing more than disagreeing with him on usenet.) Then, last year, he was scouring the search engines in an attempt to stalk me. He found a newspaper blurb of a police blotter in a distant state, in which someone with a name similar to mine was charged with child abuse. He insisted that it was me, although the person bore no similarities to me. Again, he was giving daily updates about the supposed case against me, embellishing with gory details about how I'd supposedly beaten a 3 year old girl into a coma. One problem...when the truth came out (and the charges were dismissed against the person accused) it was discovered that the case involved a boy, not a girl. Ken couldn't even get the simplest details correct. That's to be expected, though...he has no formal education, and had to purchase a college degree from an unaccredited diploma mill. <http://www.aboutkenpangborn.com> The truth about Kenneth Pangborn, who supports convicted child sex criminals The FACT is that and I were introduced in the FORMAL Spanish tradition by mutual friends, and were married first in Cuba after 2 year courtship. -

I don't think you'd get it if 20 cities were blown up you STILL would want to prove that you were BETTER than they are!!!! What I learn is a simple rule - when you have a group like Al Qaeda you do unto the others BEFORE they can do unto you! I have little problem with them blowing each other up. I consider that a part of natural selection. I object, however, to them bringing their INSANE shit here. SO I would send an emissary to Bin Laden and his boys with a simple message. That being that if he sends more of his boys over we will track them to where they came from or were sent from. (If he's clever enough to use non-Arabs.) When we learn it, that city gets a 1 megaton nuke. When the second time comes we send bulldozers over to Jerusalem and take down the Dome of the Rock. The third time Medina gets a 10 megaton nuke. A fourth time, Mecca gets a 50 megaton nuke per month for a YEAR! If there is a 5th time we get PISSED..... I see your terror is still on high. How pathetic.
